

WORKOUTS FOR MIND, BODY, AND SPIRIT

■ 12 WEEK WELLNESS WORKSHOP (WW)

"True wellness is the interconnectedness of DAILY exercises for your mind, body and spirit!" This 12 Week Wellness Workshop EMPOWERS, educates, motivates and holds you accountable to reach and maintain goals. Your goal will be to prioritize YOU in a busy lifestyle so your time and money spent matches your value system (Faith, Family, Fitness, Finances/Fun). It will include a trip to the grocery store, recipes, food to taste, functional FUN workouts, weekly weigh-ins and behavior goals for exercise, nutrition, spiritual and financial wellness. Since nutrition is over 70% of the way you look, feel and perform, mental nutrition is the key to transforming old behaviors into new and spiritual health is needed to maintain goals on earth until eternity, I highly encourage everyone to attend this workshop. It will TRANSFORM your life inside and out!

(Includes 1 workout weekly for \$200 monthly or unlimited training for \$250 monthly for 3 months. You will save that much money per month from cutting back on eating out as often and on other unhealthy habits. \$100 for pretest/post test consultation and manual upfront as your commitment to prioritizing yourself the next 90 Days to leave a healthy family legacy).

■ FUNCTIONAL FUN FULL BODY WORKOUTS (FF)

Hit every muscle group plus core (Super sets, Tabata, Cross-fit, circuit training, cardio-strength, body pump, body weight, plyometrics and more). No two workouts are the same. They are designed to be safe and fun for anyone regardless of age, fitness level or medical concern.

We will add another time slot every 8 new clients. Our goal is to offer 40 hours per week between workouts, specialty programs and yoga classes!

■ POWER VINYASA YOGA (Y)

Powerful, energetic form of yoga while students fluidly move from one pose to the next while connecting their breath to the movements. Some of the benefits include: Flexibility, balance, strength, aerobic / anaerobic endurance, posture, detoxification, stress reduction, sports performance, mental focus & more.

■ SPORT SPECIFIC TRAINING (SS)

Workouts for athletes wanting to take their performance to its highest and best. Workouts include agility, speed, endurance, strength, power, core and flexibility. Athletes will be educated on nutrition before, during and after workouts and competition.

■ CORPORATE WELLNESS

A healthy and happy employee saves money by decreasing health insurance premiums and by increasing productivity.
